

# ST. ANDREW'S PRESBYTERIAN CHURCH

BEULAH, MICHIGAN

OPUS 2165

2 MANUALS, 28 RANKS

THE REUTER ORGAN COMPANY 2019

*The nucleus of this instrument was originally built in 1993 for a church in Bradenton, Florida. The installation for St. Andrew's Presbyterian Church features a new Great principal chorus and a redesigned and revoiced Swell division. Mechanical components were comprehensively renovated and updated as needed, including new leather for reservoirs and primary action valves, and a new blower and expression shade motor. The existing console was fitted with new stop controls and solid-state combination action. The organ was completely rewired, and a solid-state switching system was added. The cross of St. Andrew is the central focus of the new façade and case, superimposed on a view of Platt Lake with Lake Michigan in the distance. Before*

## Great (enclosed)

|        |                |
